		Web:	www.kickresume.com

⭐ PROFILE SUMMARY

In my current role, I am a Cloud Solutions Architect with multiple years of IT infrastructure experience. I work with large enterprise clients on designing solutions which leverage their data and turn it into intelligent solutions.

I have been featured on Microsoft's Wall of experts and have been a speaker at multiple Microsoft's technical conferences internationally.

⭐ SKILLS

`Azure Active Directory` `Azure Data Factory` `Azure Data Catalog` `SQL Data Warehouse` `Power BI`

`Azure Data Lake Store` `Azure Data Lake Analytics` `Cognitive Services` `Machine Learning` `Office 365`

`Hybrid Cloud and Azure Stack` `Identity and Access Management Solutions` `Identity as a service (IDaaS)`

`Single Sign-On (ADFS, SailPoint, Okta)` `Enterprise Mobility / Microsoft Intune` `Cloud IaaS / PaaS`

💼 WORK EXPERIENCE

Microsoft Canada
Toronto
Canada

Cloud Solutions Architect   **2013-06 - present**

In my current role, I am a member of Microsoft's Cloud Solutions Architect team where I architect and deploy enterprise solutions based on Microsoft Azure. I also work closely with Microsoft sales team providing technical pre-sales assistance on potential opportunities that can leverage Microsoft Azure Suite.

Major responsibilities in my current role include working with enterprise clients developing solutions around –
1. Information management, Big data stores, Machine Learning, Analytics and Cognitive services.
2. Datacenter Transformation (VM deployments, Networking, ExpressRoute).
3. Security, Compliance, and Privacy (Identity, Governance, RBAC).

Microsoft US
Redmond
USA

Cloud Program Manager   **2012-06 – 2013-06**

I lead the WW Cloud business for Microsoft Global Delivery with an end to end business responsibility and was responsible for Office 365 migration business for the North American region for Microsoft Global Delivery with growth and delivery targets.
I have managed a team of 20+ consultants with CSAT targets and had successfully lead responses of large RFPs.

Following were the major responsibilities that I had when in role -
1. Run the Infra and Cloud computing business for Microsoft Global Delivery starting from business plan, customer acquisition strategy, go to market plan, presales and delivery.
2. Successfully lead responses of multi-million-dollar RFP responses and winning business.
3. Conceived and implemented Industrialized Services model for cloud computing and infra services.
4. Conceptualized and operationalized a unique rate card based pricing model used my Microsoft globally for selling migration services.
5. Responsible for heading Cloud migration factory which migrated more than 1 Million mailboxes to the cloud.
6. Successful in delivering more than 30 projects with 100% CSAT.

City, ST | (123) 456-7890 | email_ID@email.com | https://www.linkedin.com/in/LI_ID

SOFTWARE ENGINEER ✦ DATABASE ADMINISTRATOR ✦ FRONT-END/BACK-END WEB DEVELOPER
Software Development ✦ System Design ✦ Process Improvements

10+ years of experience as a detail-oriented Software Engineer with a proven track record for gathering requirements then designing and developing applications. Excels at learning new technologies and applying them to develop clean and well-structured code. Experienced at working in a cross-functional environment at all stages of a Software Development Life Cycle (SDLC) using either an Agile or a Waterfall methodology. Excellent collaborative team player and an outstanding communicator.

CORE COMPETENCIES

- Application Programming
- Object-Oriented Technology
- Working with Clients
- Software Analysis and Design
- Database Design/Development
- Web Design/Development
- Application & Unit Testing
- Documentation Review
- Debugging/Troubleshooting

PROFESSIONAL EXPERIENCE

Software Developer II ✦ Company Name ✦ City, State ✦ Jun 2012 – Present
- Developed front-end web UIs using REST with client-side validation and back-end management.
- Supported the Sales team by meeting with clients to discuss proucts and gather requirements.
- Collaborated with other teams to refine strategies to address technical and workflow issues.
- Ceated desktop applications in C# and Windows Presentation Foundation (WPF) to check for corruption in recovered files.
- Provided development tasks and time estimates to aid in scheduling, updating status to Project Managers and stakeholders.

Software Developer I ✦ Company Name ✦ City, State ✦ Jan 2009 – May 2012
- Developed SAS and SQL code to create financial reports, integrating data from multiple sources to display customer behavior, demographics, and lifecycle.
- Performed peer review troubleshooting and debugging of code and resolved issues, such as memory leaks.
- Translated established produt requirements into code to implement solutions.
- Worked with technical writers to provide input and to review documentation.

Data Engineer ✦ Company Name (through ABC Contracting) ✦ Mar 2007 – Jan 2009
- Implemented forecasting models using SAS to formulate lead purchasing patterns and predict sales.
- Designed 10 dashboards and automated reports to measure vendors' key performance indicators (KPI).
- Worked cross-functionally in an Agile enrionment to deliver the product 35% earlier than projected.
- Performed risk analysis of data portfolios from across projects using Oracle 11g to preprocess banking data.

EDUCATION

Bachelor of Science, Information Systems — School Name — City, ST

TECHNICAL SKILLS

PROGRAMMING / SCRIPTING LANGUAGES	- JQuery, Java, JavaScript, TSQL, C, C++, C#, Objective-C, VB Script, Perl, PHP, Python, Unix Shell Scripting, R, SAS
DATABASES	- SQL, SQL Server, Oracle 11g
NETWORKING API	- REST
